

Clarifying Information: Staff have been trained over the years for LLI/Guided Reading, Foundations, Vocabulary, and SOAR. HCPSS now uses a trainer of trainer model for these interventions. Staff that have been trained in a school will train new staff to their building. Wilson, Visualizing & Verbalizing are used primarily for students with IEPs. These numbers represent known staff trained not those trained on site by staff in the schools that have been trained. Many of the materials of instruction are purchased by schools and not by central office, we do not document schools based purchases.
