As status is dynamic, counts provide a snapshot of students on a set date. Student statuses from the 2016-2017 school year are as of June 14, 2017. The student statuses from the 2017-2018 school year are current as of April 16, 2018.

RELL Definitions = Please note, the definition of RELL changed this year. Where starting in the 2017-2018 school year the state's definition of RELL are students who ever received ELL services. In the past the definition was students who exited services on or after June 1 of two school years prior. In this file we provided both methods. RELL Ever is if a student was ever ELL, including exited in the last two years. And RELL Last Two Years is using the old definition on if students exited on or after June 1 of two school years prior.

HCPSS follows the Maryland State Department of Education and the National Center for Education Statistics' guidelines for protecting student privacy in public reporting and suppresses: counts that fall below 10; percentages that are less than or equal to 5, or greater than or equal to 95; categories directly related to specific student records; and/or information that, when combined with other publicly accessible data, can reasonably identify an individual student or reveals information from an individual student's record.
