Ok

5:19 PM

I need the numbers to come up first

5:19 PM

Ok

5:19 PM

This means less of a change to running brook, but is a reasonable compromise

6:41 PM

If I vote no what does it impact?

6:42 PM

Not as significant gains at running brook farms but takes down capacity. Reasonable tradeoff

6:43 PM

Actually the new small feeds are lower than current situations
