Subject: [External] September 30th polygon student data

! CAUTION: This email originated from outside of HCPSS. Do not click links or open attachments, unless you recognize the sender and know the content is safe.

Hello Ms Cutroneo and Ms Delmont-Small,

First, I would like to thank you for your efforts in trying to make the redistricting process as thoughtful and productive as possible. It was a painful couple of months for all of us. Thank you for all of your efforts.

Members of [REDACTED] - Polygons 159/1159) are developing an appeal to the State Board of Education. To support this effort I would like to be able to provide them with accurate data on feed sizes and cohort size. The data that I have available includes the final assignments, utilization percentages, and feed sizes. What I do not believe we have access to is the student projections by polygon that were used during the process. The data that was used for the feasibility study and superintendent's plan is available in a spreadsheet on the HCPSS boundary review page. Following what data has been used throughout this process has been challenging, but based on my calculations and the discussion last night I think that September 30th enrollment numbers and projections based on those numbers were used in the final calculations.

It is possible that the data used is publicly available and i am just not aware. Due to the time constraints of the process I am worried that requesting the data from school planning is not a viable options. I would be very grateful for any suggestions or support you could provide to assist us in obtaining the data.

Ideally, i would like an updated version of the publicly available spreadsheet. If that is not possible, I would like to request student projection numbers (by polygon) for polygons 159 and 1159 and 2161 and per year projections for St John's Lane ES, Burleigh Manor MS, Patapsco MS and Mt Hebron High School.

Thank you again for your hard work, and i apologize for adding more to the list.
Sincerely,
Kristen Piggott

Sabina,

The student you speak of with the father that passed away was polygon 159. Can I suggest that before we consider making hardship waivers, we actually determine where that polygon ends up. It may also be that a student with a hardship like that may not want to be separated from her neighbors if her polygon is reassigned.

But I support adding the language from Policy 9000 to the FAQ.

Regards,
Jen

Thanks, Jen.

Can we add this to FAQ. I've been highlighting kids in more vulnerable circumstances and this would help parents impacted feel a little less stressed.

There was also a child whose father passed away last year. I don't know how to add this kind of unique circumstance into the mix, but feel she should be exempt.

Thanks,
Sabina

As we heard testimony tonight about the concerns of a special education student, I suspect that many of us were worried about redistricting effects on such a fragile child. Just so you know, as per policy 9000, families are allowed to request a waiver for any student with an IEP, etc [see text of policy below].

A resident student has an Individualized Education Program (IEP), 504 Plan, or at least one parent who is currently active duty

military personnel is reassigned for the purposes of redistricting may request reassignment to remain at their current school until the completion of that school level. The process outlined in Section V. of the Policy 9000 Implementation Procedures will be used for the reassignment request.

Subject: redistricting data question re: walkers
Date: Tuesday, August 27, 2019 8:06:10 PM

Good evening,

I have made a spreadsheet of all the proposed moves by polygon so that I can begin my analysis. Below, I have sorted out current walkers who are slated to move. Polygon 1174 is listed as a walker polygon, but it is not. Would it be possible for staff to review the polygons marked as transitioning from walkers to ensure accuracy?

Thanks,
Jen

Polygon	Current ES	ES Walk Zone?	Proposed 8-20-2019
54	Cradlerock ES	YES	Atholton ES
65	Thunder Hill ES	YES	Talbott Springs ES
96	Stevens Forest ES	YES	Thunder Hill ES
144	Longfellow ES	YES	Bryant Woods ES
151	Thunder Hill ES	YES	Talbott Springs ES
268	Bryant Woods ES	YES	Longfellow ES
1065	Thunder Hill ES	YES	Talbott Springs ES
1174	Swansfield ES	YES	Clarksville ES
1268	Bryant Woods ES	YES	Longfellow ES
2054	Cradlerock ES	YES	Atholton ES
2065	Thunder Hill ES	YES	Talbott Springs ES
3138	Swansfield ES	YES	Longfellow ES
Polygon	Current MS	MS walk Zone?	Proposed 8-20-2019
143	Harpers Choice MS	YES	Wilde Lake MS
1268	Wilde Lake MS	YES	Harpers Choice MS
Polygon	Current HS	HS Walk Zone?	Proposed 8-20-2019
78	Long Reach HS	YES	Oakland Mills HS
79	Long Reach HS	YES	Oakland Mills HS
159	Mt Hebron HS	YES	Marriotts Ridge HS
1159	Mt Hebron HS	YES	Marriotts Ridge HS
3071	Long Reach HS	YES	Oakland Mills HS
4133	Atholton HS	YES	Wilde Lake HS
