Good morning,

I responded to the Pointe's United group alias yesterday morning letting you know that I have reached out to Ms. Coombs our cluster rep requesting a meeting on behalf of the entire PRES community regarding the entire redistricting process. I have copied and pasted the email below. Additionally the following email was sent by Mrs. Schaefer also yesterday morning.

From me

to Syma, Julie, Leslie, Minhaj, president, Lisa, 2ndVP, 3rdVP, treasurer, secretary, Jessca, Honglingz, pointersunited

Good morning,

I wanted to let you all know that I reached out to Kirsten Coombs late night regarding the possibility of a meeting. I want to be clear that the PTA is not taking a stance or taking sides or advocating for one outcome or another on behalf of any specific polygons, as there is no way that we would be able to represent each family's wants fairly.

If I hear anything back, I will let you know.

Thank you.

Hello, I know this process has been very difficult for many of our families and community members. As you know, our PTA determined from the start of the school year that they were not taking a stand since in a local scenario members of our community would be impacted. They determined to remain neutral.

Administrators also need to take a stand and need to remain neutral as well as our employees to serve our entire county. I am unable to attend work sessions, public forums about redistricting, or be involved. Even if the PTA held a meeting (still determined not to take a stance), the administration would not be in attendance. I do not want any family to feel I am not supporting them but I also must do what is asked of me as the principal of PRES. We teach and welcome every child that enters our doors and it would not be right to take a stance for one over another. I will be sad to see any of our families and students leave PRES.

I can't speak to what other schools have done or why a board member came to one school vs. another. I do know that Cara Mahoney did reach out to Kirsten Coombs for our community to see what possibilities are available. I have been following the redistricting plan and have heard many of our families and students' test monies. I also reached out to my community superintendent to share how our community is feeling. Thank you for reaching out to me. Have a good day, Julie Schaefer

Dear Ms. Schrufer and Ms. Brickner,

As you may already be aware, the BOE voted this afternoon (while most parents were still at work) to move our four polygons in the Pointers United group from PRES to Swansfield Elementary. We are shocked and extremely disappointed by the BOE's action. **We respectfully request your support in reaching out to BOE members asking them to rescind their vote. We have only ONE WEEK until this action will be final.** We understand that Clemens Crossing parents were able to successfully facilitate meeting with BOE member Jen Mallo through the help of their school PTA and possibly administrators too, which prompted Ms. Mallo to propose that our polygons be moved. We are hopeful that our PTA and school administrators will choose to support the many, many actively involved parents who currently send their children to PRES.

Please advise if you can help us in approaching the BOE.

I also just sent a similar request to the PTA Board and am cc-ing those members on this email. I am also cc-ing the Pointers United group.

Thank you,

Tony & Stephanie Ong

Hi Julie,

I've heard that the Pointers United group has asked you to set up a meeting with Kirsten Coombs. We really hope that you don't agree to do that.

Laura and I have been very passionate supporters of the superintendent's plan to use redistricting to address the educational inequities in the county. We strongly believe that redistricting is a powerful tool to help economically disadvantaged children. While we both love PRES and would be so sad to have to leave this wonderful school, if our polygons moving will help improve the inequity problem, then we are in favor of the move. Maybe it's because we both are products of diverse public schools growing up, but we just don't think that moving to Swansfield as opposed to Clarksville will be in any way a negative outcome for [REDACTED]

I know the P.U. group is citing the Clemens Crossing meeting with Jen Mallo as precedent for you asking for Kirsten to meet with them, but they are very different situations. The CC polygons only came into play with the BOE very late in the game, so their community didn't have a chance to publicly testify to the board. Our situation is the opposite—the Pointers Run polygons move to Swansfield was part of the original superintendent's plan, and hundreds of us in the neighborhood took advantage of the opportunity to speak to the Board, in person at the public hearings and in writing. There is no reason for them to meet with Kirsten, other than to try and pressure her to move the Pointers Run polygons to Clarksville in accordance with their desired outcome.

We are so disappointed that the P.U. group has put you in this position. They have asked you, in effect, to support their efforts to lobby the board for their desired redistricting outcome by arranging for this meeting with Kirsten. This is a really unreasonable and, I think, unethical thing for them to have done, since everyone is aware that HCPSS personnel need to stay neutral in the redistricting fray.

We hope that you will not agree to arrange for this meeting.

Warm regards,  
Dan & Laura Newberger
