FYI...we have not heard any additional information about the Union drive by protest for this evening during he BOE meeting but will have adequate Security staffing. Plan to funnel the cars into the ARL lot if they turn into the campus. If they get out we will direct them to the area by the road where we have allowed protests in the past.

Tuesday 7:26 PM

How did the car protest turn out?

No problems. They showed up honking their horns. Gave a few speeches calling the BOE and Dr M liars who don't care. Then they all left.
