# **HCPSS Policy 1080 Educational Equity**

Racism - The belief that a particular race is superior or inferior to another, that a person's social and moral traits are predetermined by his or her inborn biological characteristics. Racial separatism is the belief, most of the time based on racism, that different races should remain segregated and apart from one another. This includes systemic racism which is the systematic distribution of resources, power and opportunity in our society to the benefit of people who are white and the exclusion of communities of color.

But race is the child of racism, not the father.

Coates (2015)

#### What is race?

# Question 1

Thinking back to your childhood, what conversations do you recall having or (not having) about race or racism with your family?

#### Question 2

What is most uncomfortable to you when discussing race or racism? Why? When did you first notice that talking about racism is uncomfortable?

Coined by sociologist Joe Feagin- how Whites circulate and reinforce messages that position Whites as superior.

Encoded in cultural information-images, stories, omissions, silencing, passed along generation to generation.

"Good neighborhoods, good manners, good schools" equated consciously and unconsciously with Whiteness.

#### What makes a good teacher?
