This can be used for background knowledge. Then students can use the articles below to compare perspectives on the conflict.

1. Ask students to read both articles.
2. They should create a chart that articulates where each article agrees and disagrees.
3. Students should create a list of agreed upon facts.
4. Then have students create a cause and effect chart (a simplified one is provided) to determine the immediate and long term causes and effects of the continuing conflict.
